

Introduction to SAME

Marilyn Lewis, P.E., F.SAME

December 12, 2011

SAME is the premier professional engineering organization that unites public and private sector professionals in architecture, engineering, construction, facility management and environmental professions to strengthen our nation's security.

SAME Roots

- The seeds for SAME were planted during WWI with the addition of civilian engineers to active duty forces.
- Following WWI, a group of regular officers wanted to maintain the spirit of cooperation developed during the war among the military and private sector engineers.
- Working collectively, these groups would satisfy the requirement to understand military engineering service during wartime.

SAME Member Demographics*

Private industry:	14,995 (51%)
Individual Members:	9,535 (33%)
Uniformed Service:	5,281
State/local Gov't:	686
